Subject: Gaming Grant concern
Date: September 8, 2009 4:13:07 PM

Hello,

On behalf of Clayburn Middle School PAC...

We would like to express concern in the possibility of cuts to the gaming grant that we have appreciated in the years past. We as parent have utilized these funds to enhance and support our students in their school. We have distributed the funds as we work together with the School admin and hear what their needs (school budgets being short at times as well) are where we as parents can partner with them.

Please reach out on our behalf and may you have success in bringing the full amount of \$20/student to our school as well as all the schools effected by any possible cuts in regards to gaming account.

Examples of gaming fund use: concrete picnic tables, swings, teacher appreciation luncheon, physical fitness and more as it falls in the criteria placed on the use of gaming funds.

Thank-you,

With respect,

Bud Loewen

(PAC President)
